PALA

betoni | betong | concrete

PALA concrete furniture is a reliable choice. The products are manufactured in Finland, at our own factory. The company's values reflect innovation, sustainability, and Scandinavian design. These same values are reflected in our massive, weather-resistant products. The stylish and safety-enhancing furniture is designed for both outdoor and indoor use, as well as for public and private spaces. In addition to the PALA collection, we manufacture custom furniture on request and ensure their functionality and safety before production.

For us, it is important that our production operates as ecologically, socially, and economically responsibly as possible. We are happy to provide more information about how we fulfill our corporate responsibility in our operations.

Green Wall Vehmaa

Custom orders

We also manufacture custom-made products. You can provide us with ready-made plans or drawings, and if necessary, we will ensure their functionality, safety, and feasibility before production. Alternatively, you can inform us of your wishes for concrete furniture in an informal manner, and our expert designers will create detailed plans for production.

We gladly take on challenges and strive to tackle them with unwavering courage and enthusiasm. This way, we learn, develop, and grow. We aim to stand out as a bold implementer and partner for landscape architects, designers, and construction companies.

All our concrete furniture is manufactured at our factory Finland. PALA concrete furniture is made using green electricity: Our production runs on hydro and wind power, and the factory is heated with geothermal energy.

PALA

betoni | betong | concrete

Custom-made work: lamp bases (Arkadia 6 / Helsinki)

Accessories

Our products can be equipped and customized with the attached accessories according to the customer's wishes:

- Wooden covers
- LED lighting
- Charging point / mains
- Charging point / solar panel
- Concrete color
- Heating on a concrete bench
